### Congratulations TFN Adult Education 2016 Graduates!

The Adult Education Program was really good and very helpful. The atmosphere was great and everyone was really friendly. My goal is to become a Civil Engineer and to get my masters in engineering. I will be attending Algonquin College in Ottawa. I am excited to get on with my education. Don't let your dreams be dreams, "Just do it!"

Education is the key to opening the door to success.

The Adult Education Program was amazing because in a short period of time, I was able to graduate high school and to get accepted into college. The teachers and my classmates were respectful and helpful. I also felt comfortable and welcomed. I aspire to be a travel agent because traveling is my passion in life. I hope to travel the world and to become a role model for my community. I will be attending Georgian College in Barrie and I am very excited to embark in this new chapter of my life. My advice for people who wish to obtain their High School diploma is to think outside the box, to chase their dreams and to never lose hope.

I really enjoyed the Adult Education Program . I enjoyed the people, the atmosphere, and the best part is that I completed a lot of work in such a small amount of time. I was able to make new friends, I was also able to work at my own pace, I couldn't have asked for a better class to work in. I was accepted in Arts, Literature and Communication at the Champlain Regional College in Sherbrook. I'm very blessed to have this opportunity to go to College and I'm excited to start a new phase in a different place. I'm hoping to work in the field of journalism and communications, all in all I want to be a Writer, I always loved reading and writing. My message for others considering this class is go for it; I was able to finish a year and a half worth of school work in just six months, If you're willing to put the work and effort in, you'll earn that diploma, just like I did. And thank you TFN, HRSD and the teachers for this chance, I couldn't have done it without you.

I liked the adult education school a lot and I got to work at my own pace and when I needed help a teacher was always there to help. The atmosphere was always very positive. I would like to be a successful accountant. I am going to college at Canadore in North bay. I am a little nervous but excited at the same time. My message to other students would be to keep working at a good pace it's not a race. You can do it!
