MY COLLEGE APPLICATION PROCESS

Before graduating around Grade 11, one should begin looking into future education plans like trades, college or university. If you have no idea what you wish to do, the first thing is to find a field of study that you might enjoy and the courses that you need to graduate, and pursue that field of study. Even if you already graduated and still don't know what you want to do, remember learning has no age restrictions.

The college application is very easy. You go to www.ontariocolleges.ca and create an account. To create an account, all you need is some personal information, your resume, and your email address. Your email is your user name. Then you simply type in whatever programs you wish to apply for and select the year you want to attend. You can choose up to 5 different colleges and 3 different kinds of programs. Once you've completed your selection, go to payment options and it will ask for a credit card number. But no worries, the helpful people at HRSD will help you with this.

So yes. It is never too late to figure out what you want to do and pursue your endeavors.

HEAR FROM ONE OF OUR STUDENTS!

The TFN adult education program is the perfect place to go if you are looking to obtain your high school diploma and widely open up your options. With help from the staff and with a little bit of motivation, you could easily graduate. Kristen Chevrier, one of the students, had very positive things to say about the program.

Why did you choose the TFN adult education program?

I chose this program because it's the first step in bettering my future. Once I get my high school diploma, I can attend College and follow my dreams of becoming a travel agent. Also, so I can be proud of myself in accomplishing something so vital in life.

What is your favorite part about the program?

The staff. They lend a helping hand whenever you need it. I felt extremely welcomed when I joined the program in January. They're very polite and encouraging. I love coming to school every morning knowing that I'm in good hands.

How has your life improved, now that you've joined the program?

I've never been happier! In the two months that I've been here, I've already completed 3 classes and I've been accepted to Georgian College. Dianna Wabie has immensely helped with everything. I wouldn't have been able to do it without her. The TFN adult education program has completely changed my life. I've never been more proud of myself.

What do you suggest to people who may be thinking about joining the program?

Do it! You will not regret it. I was hesitant at first but once I got settled into the program, I knew I had made the right choice. Head over to the HRSD building and start your future!
